In this article, a comprehensive review of a Spanish restaurant in Switzerland is presented. The food offers a mix of flavors, although some may find the portions a bit sparse. The staff is friendly and happy to help with menu choices. The paella is a standout dish, despite being a bit overpriced. The atmosphere is relaxed and unpretentious, appealing to both locals and visitors alike. Special dishes such as Pulpo and Calamares are highly recommended. While the service can be slow at times and card payments are not accepted, the fresh seafood and authentic Spanish cuisine make this restaurant a must-visit.
